

THE CONCEPT

Martini Park features an unprecedented combination of world-class design, warm hospitality, highly-acclaimed cuisine and signature martinis and cocktails. Featuring adult contemporary music nightly, the concept combines a vibrant atmosphere with a warm and friendly staff to provide an unforgettable restaurant and entertainment experience.

THE CUSTOMER

Martini Park was conceived when the founders realized there was a void in the dining/entertainment sector for people in their 30's and older, who enjoy an evening out but not the traditional nightclub velvet rope scene. What developed was a female-friendly (the guest profile is approximately 60% female and 40% male), upscale, fun dining and lounge destination for locals and business travelers.

THE CUISINE

Only the freshest ingredients are combined to create Martini Park's delicious menu. From fun, sharable plates like Salmon Poppers (pictured), Surf or Turf Nachos, Mac & Cheese "Sticks," and Thai-style Calamari, to delectable entrees like Stuffed Chicken Florentine and The Petite Filet, there is something irresistible for every palate.

THE COCKTAILS

Whether you like them shaken or stirred, Martini Park's signature cocktails are made with fresh ingredients, creative garnishes, and a little love from the bartender. Some of Martini Park's most popular favorites include: The Apple Martini (right), the 24 Karat Gold, the Pomegranate Martini, Decadent Chocolate, and the Silly Goose.

THE SERVICE

Guests will enjoy the venue's unparalleled attention to service and detail. Martini Park welcomes its guests with open arms and ensures that each guest feels like a VIP, while maintaining a comfortable, safe environment with friendly door hosts, a stylish dress code, and well-lit outdoor atmosphere.

THE SPACE

World-renowned architect Jeffrey Beers designed Martini Park to offer several distinct environments. Guests can enjoy live music in the main room (pictured right); chat in the intimate round bar area; socialize around the patio; or enjoy the view from the VIP area.

The Amber Resin Bar Top evokes simultaneously imagery of both fire and ice. The warm glow emanating from the bar in its varied tones of gold, amber, and vermillion draw the customers in to discover its deep crystalline structure. The captivating nature of the material creates a memorable signature to Martini Park that is as unique as it is beautiful.

The White Gold Quartzite stone used throughout Martini Park gives the venue a feeling of strength and solidity, while at the same time providing warm sophistication. The tailored variety of the joint work and natural variation of the stones tonal range conveys a defined sense of style.
